Fruit Trees

PEACHES

(Named in order of ripening.)

Fair Beauty, Dixie Gem, Early Red Bird, ~~Golden Jubilee~~, Red Haven, New Elberta, Hale Haven, Early Elberta, Elberta Cling, Elberta, Indian, Late Elberta and Melba.

These are all standard varieties of peaches. I think the New Elberta is the best peach ever produced. The Red Haven is very similar. Exceptions are that it ripens a few days earlier and is a little redder. The Elberta Cling is sometimes sold under the name of Minnie Stanford. Melba does well in South Texas.

VARIETIES OF PEARS

Keiffer, Douglas, Patten, Lincoln, Waite, Garber, Gorham and Cope Seedless.

Our supply of Garber and Waite is small and in small size.

VARIETIES OF APPLES

King David, Red Delicious, and Yellow Delicious.

VARIETIES OF APRICOTS

Perfection, Blenheim and Hungarian.

I have found the Blenheim to be the most consistent bearer. **Nematode proof 3-4 ft. 50¢ each**

^{out} ~~Toka~~ VARIETIES OF PLUMS

~~Toka~~ and Munson.

The Toka is the best plum I have ever tasted.

VARIETIES OF PERSIMMONS

Eureka, Tani and Nichi.

VARIETIES OF GRAPES

Carman and Ellen Scott.

PROLIFIC DEW-BLACKBERRIES

4c each Dozen 40c

Flowering Shrubs

Spirea Reversania, Spirea Van Houtti, Spirea Bethelmensis, Spirea Thun Bergii.

Crape Myrtle White, Crape Myrtle Red,
Wygelia Rosa.

3-4 ft. 35c each

Althea Double Red, Althea Double White.

Above Shrubs, 1-2 ft. size. Price 45c each

Red Leaf Barberry. About 15 inch. 60c each.

Magnolia Grandiflora (balled and burlapped)
2 ft. \$2.00 each

VARIETIES AND COLORS OF ROSES

Rouge Mallerin, dark red	Editor McFarland, pink
Ami Quinard, dark red	President Hoover, two-tone
Poinsettia, deep red (scarlet)	Golden Charm (Yellow Talis- man), yellow
E. G. Hill, deep red	Lady Hillingdon, yellow
Columbia, pink	F. K. Druski, white
CLIMBING ROSES:	Talisman, two-tone
Paul's Scarlet, red	American Beauty, white

Our climbing American Beauty is the old-fashioned American Beauty that has the long stems and blooms throughout the summer.

All of our roses are western grown and are therefore hardy and will bloom throughout the summer unless the season is unusually dry. Get western grown roses for hardiness.

We only handle the No. 1 Jumbo size as the smaller sizes do not give satisfaction in a large number of cases.

(Texas Everbearing, also known as Harrison.)

Enclose 25s extra for postage on orders less than \$10.

Trees taller than 4 feet cannot be shipped by mail but will be shipped by express, charges collect. Be sure to give express office nearest you. Express paid if your order amounts to \$10.00, except when special price is quoted on large orders.

If you wish larger quantities of peach or pear trees, write for special prices.

Tree roots grow during the winter months, so a tree will be in better condition for the next growing season if it is planted early in the dormant season.

We have small quantities of other nursery stock too small in amount to advertise. If you do not see what you want write us. We can probably furnish it at a saving to you.
